New York, Sept. L.—The conference of the members of the New York, Liverpool, and New Orleans exchanges was resumed today, after the four parleys of the day previous, which breught mutual acquaint-anceship and discussion on broad lines. Senator Smith, of South Carolina, is quoted in relation to financing cotton through emergency currency as saying:

"The national government is willing to advance this money on a basis of \$40 per lails."

This is not the general understanding of the policy of the Treasury Department, as announced previously by Mr. McAdoo. Emergency currency, according to the understanding reached in Washington, is to be issued through currency association to member banks on a basis of \$5 per cent of the note or obligation hand on cotton stored in warehouses. This money may be at 5 to 10 cents a pound basis in its face value, but the government has no part in making this valoritation.

In this connection it is important to note that the same ruling will be applied to naval abrora, and hasmuch as the commodity producers all over the country may ask for similar accommodation it is logical to expect similar trustment from the Treasury Department in these directions.

The price of syst cotton in the Scath continues irregular, with quotations from 7 to 8 courts per pound on a basis of middling. The crop is being rapidly picked, and today's weekly weather report indicated favorable conditions as generally prevailing.

IKE our own Paul Jones, de Ruyter knew no such word as surrender. His life from boyhood up was one constant battle against the enemies of his country. He defeated the proud English navy in two wars. One of his sea battles with the English fleet lasted four solid days, and ended with the advantage resting with de Ruyter. Later he fought several great naval duels against the combined English and French fleets, and while his victories were not decisive, he won for Holland undying glory. The great de Ruyter abhorred tyranny of every kind, just as do the Hollanders of to-day. When prohibitory enactments are proposed to those of the blood of Holland they vote to a man against it. They are wherever found unalterably opposed to any legislation which would make the many suffer for the faults of a few. Hollanders know that there is no evil in the barley brews and light wines of their fathers—EVIL ONIX IS IN THE MAN WHO MISUSES THEM. In America we have thousands of these splendid people, and Personal Liberty always obtains where they reside. For 57 years Anheuser-Busch have enjoyed the trade of those of Holland blood because every day of these 57 years has been devoted to the honest brewing of Barley-Malt and Hop brews, It is not to be wondered that 7,500 people are daily required to keep pace with the natural demand for Budweiser. Its sales exceed those of any other beer by millions of bottles. ANHEUSER-BUSCH-ST.LOUIS, U.S.A.
